Senate Bill No. 205 Stormwater Discharge Compliance Form

On October 2, 2019 the Governor of California signed into a law Senate Bill (SB) 205. This bill requires a person or entity who conducts a business operation that is a "regulated industry" to demonstrate enrollment with the National Pollutant Discharge Elimination System (NPDES) permit program. The goal of the program is to address the health and safety of drinking water sources statewide. By providing specified information on an initial or renewal City business license application, enrollment in the NPDES permit can be confirmed.

Compliance with SB No. 205 does not affect all businesses. Only those businesses with primary Standard Industrial Classification (SIC) codes that are identified by the State Water Board as requiring enrollment in the industrial General Permit (IGP) are affected. The form below will guide you and the City in determining if your business required enrollment in the IGP.

Completion and submission of this form is required with your 2021 business license renewal.

1	Provide the primary Standard Industrial Classification (SIC) code for the business type at this location. Look up your SIC Codes at the website below and write the code in the box to the right: https://www.osha.gov/pls/imis/sicsearch.html . To find your code search by keyword(s). (for example: metal recycling) OR request the SIC code from your insurance broker.	_____
2	Do any of the Primary SIC Codes from questions #1 above match any of the regulated SIC codes listed on the Water Board website below? https://www.waterboards.ca.gov/water_issues/programs/stormwater/sic.html	<u>Circle One</u> Yes No
	If you answered NO to Questions #2 above, fill out, sign and return this form with your business license renewal. Nothing more for compliance with SB 205 is required of the business at this time.	
4	If you answered YES in Question #2 above, has the business already obtained an Industrial NPDES Permit?	<u>Circle One</u> Yes No
5	If you answered YES in Question #4, provide the requested information regarding the existing Industrial NPDES Permit in the box to the right. Fill out, sign form, and return this form along with a copy of your approved permit with your business license renewal. This provides the required documentation that you are in compliance with SB 205.	WDID # _____ WDID Application # _____ NEC ID# _____ NONA ID# _____
6	If you answered NO in Question #4, you need to enroll under the Stormwater Industrial General Permit (IGP). Once you have received an approved permit you MUST provide the City with a copy of your approved permit and your permit numbers as described in Question #5 above. Fill out, sign, and return this SB205 Compliance Form with your business license renewal now to indicate you are working towards getting the approved permit. Start the process of obtaining the Industrial General Permit by contacting the State or Regional Water Board at the information listed below. The City will issue you a 3-month provisional business license while you obtain the IGP and report the permit numbers to the City.	

Declaration

I declare under penalty of perjury under the laws of California that the above information is true and correct to the best of my knowledge.
