As a part of the obligation secured hereby and in addition to the face amount specified therefore, there shall be included costs and reasonable expenses and fees including reasonable attorney’s fees, incurred by City in enforcing such obligation.

As a condition precedent to the satisfactory completion of the Contract Documents, unless otherwise provided for in the Contract Documents, the above obligation shall hold good for a period of one (1) year after the acceptance of the work by City, during which time if Contractor shall fail to make full, complete, and satisfactory repair and replacements and totally protect the City from loss or damage resulting from or caused by defective materials or faulty workmanship. The obligations of Surety hereunder shall continue so long as any obligation of Contractor remains. Nothing herein shall limit the City’s rights or the Contractor or Surety’s obligations

under the Contract, law or equity, including, but not limited to, California Code of Civil Procedure section 337.15.

Whenever Contractor shall be, and is declared by the City to be, in default under the Contract Documents, the Surety shall remedy the default pursuant to the Contract Documents, or shall promptly, at the City's option:

- (1) Take over and complete the Project in accordance with all terms and conditions in the Contract Documents; or

The term "balance of the contract price" as used in this paragraph shall mean the total amount payable to Contractor by the City under the Contract and any modification thereto, less any amount previously paid by the City to the Contractor and any other set offs pursuant to the Contract Documents.
- (3) Permit the City to complete the Project in any manner consistent with California law and make available as work progresses sufficient funds to pay the cost of completion of the Project, less the balance of the contract price, including other costs and damages for which Surety may be liable. The term "balance of the contract price" as used in this paragraph shall mean the total amount payable to Contractor by the City under the Contract and any modification thereto, less any amount previously paid by the City to the Contractor and any other set offs pursuant to the Contract Documents.

Surety expressly agrees that the City may reject any contractor or subcontractor which may be proposed by Surety in fulfillment of its obligations in the event of default by the Contractor.

Surety shall not utilize Contractor in completing the Project nor shall Surety accept a bid from Contractor for completion of the Project if the CITY, when declaring the Contractor in default, notifies Surety of the City's objection to Contractor's further participation in the completion of the Project.

The Surety, for value received, hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of the Contract Documents or to the Project to be performed thereunder shall in any way affect its obligations on this bond, and it does hereby waive notice of any such change, extension of time, alteration or addition to the terms of the Contract Documents or to the Project.

EXHIBIT “A” – SCOPE OF WORK TRAFFIC SIGNAL MAINTENANCE SERVICES

A. General Description

The traffic signal maintenance contractor (“Contractor”) shall perform routine scheduled maintenance, extraordinary, emergency repairs and technical support for the City of Coachella’s (“City”) traffic signal systems, interconnect, flashing warning lights, illuminated street name signs, highway safety lighting, and all appurtenant equipment. Contractor shall furnish and have accessible all required tools, equipment, apparatus, facilities, skilled labor, services, and material, to perform all work necessary to maintain in a good and workmanlike manner traffic signal facilities in accordance with the proposal and the defined scope of work. Traffic signal systems shall include but not be limited to all traffic signal indications, traffic signal controllers, electrical service, battery back-ups, electrical or mechanical traffic control or traffic devices, traffic poles, emergency vehicle pre-emption equipment, interconnect, cabinets, splice pedestals, street lights, and all related hardware at all City signalized intersections.

As specified herein, the Contractor shall maintain traffic signal systems to eliminate or reduce the incidences of malfunctions, reduce operational complaints, and maintain equipment in proper working order. Required normal working hours for maintenance coverage is from 7:00 a.m. to 5:00 p.m. Monday through Friday; however, twenty-four- hour (24), on-call response to City’s request for maintenance and repair services is required. In general, routine responses related to these maintenance functions during normal working hours and maintenance requiring scheduled night-rides shall be considered normal scheduled maintenance work. All extraordinary and emergency work performed outside these specified hours and on holidays shall be paid at the approved overtime rates.

All identified City intersections per this agreement shall be regularly patrolled by Contractor or its representative with verified monthly inspections per an established checklist. The Contractor shall recognize these traffic signals, warning devices, and highway safety lighting as critical safety devices to the public; timely response to requests and completion of final repairs is imperative.

B. Specifications

All signal work shall be performed in accordance with the current Standard Plans and Section 86 of the Standard Specifications for the State of California, Department of Transportation (latest edition), and “Greenbook” Standard Specifications for Public Works Construction (latest edition), and the current City Standard Plans. All work performed or equipment or parts supplied by Contractor shall be subject to applicable Federal and State Standards, approved proposals, contract documents, City inspection, and approval by the City, its Director of Public Works, or his authorized representative.

Failure to pass inspection on any maintenance, repair and service item will result in nonpayment for that item until such time as the Contractor can complete the item to the satisfaction of the City.

C. Compensation for Maintenance

City will compensate Contractor for monthly routine maintenance at the contract monthly unit price (lump sum). Said compensation shall include all labor, materials, equipment, overhead and profits to perform the routine service and no extra compensation will be allowed.

Extraordinary maintenance shall be invoiced at the established rates per Exhibit C of the Agreement and shall include all labor, materials, equipment and profit. All items not covered shall require a negotiated price and approval by the Director of Public Works or authorized representative. All extraordinary maintenance requires City authorization prior to beginning the work unless the work is an emergency repair required to restore the safe operation of the traffic signal system. Contractor shall still submit the appropriate documentation for subsequent authorization of the emergency work including photos of any visible damage with details of any final repairs that might be required including a schedule for completion. City reserves the right to separately bid extraordinary maintenance work to other firms in the event a negotiated price or schedule of completing repairs cannot be reached which is acceptable to both parties or is deemed by the City to exceed the terms of the current Contract. Contractor may be required to assist or support other firms selected by the City as requested.
